

Good Practices in Education Models of European Youth -Romanca Society

The summary of project:

The project " Good Practices in Education Models in European Youth" is a multilateral youth exchange that takes place in UK, 2016. " Good Practices in Education Models of European Youth" involves 28 participants (4 participants from each country) genders equally balanced for over 18 years old and 7 group leaders (one leader from each country) coming from Czech Republic, Portugal, Latvia, Serbia, United Kingdom, Italy and Turkey.

The main theme of the project is to learn the educational systems in European countries.

Our goal is to share educational experiences and cultural differences either in formal or informal fields between young people coming from different EU Countries.

The project also analyze these connections related to education:

- 1) Young people's labor market;
- 2) European Citizenship;
- 3) Intercultural Learning.

The project is developed in 3 phases:

Preparation: The participants within their organization prepare an enquire about the education and the other topic of the exchange both with questionnaires and audio interviews. There is an Advanced Preliminary Meeting only with the group leaders to agree in details the activities implementation.

Implementation: During the first days of the exchange there are integration and group building activities, non-formal workshops on the topic of the exchange, trip to some historical places, a seminar , intercultural activities and youth issues discussions

The materials used and collected during and before the exchange are used to prepare a social media networks that is build up by all participants during the project (face book, blog, twitter, you tube)

Evaluation: There is an on going evaluation during the project and a final evaluation on the last day of the exchange. Also Web tool evaluation tools are used by the team leaders to monitor the results of the projct. Youth Pass certificates are completed and issued for each participant as an auto evaluation tool.
